

Candi Wines, MPH

Ms. Wines joined the Board in a temporary Health Policy Analyst position on March 8, 2004. Ms. Wines worked previously with the Board as the Genetics Task Force Coordinator for the Board's Genetics Task Force. She received a Master's degree in public health genetics from the University of Washington School of Public Health and Community Medicine, Institute for Public Health Genetics. Her background includes work in health care and health-related research in women's health, HIV/AIDS, nutrition, hemochromatosis, diabetes, and birth defects and developmental disabilities. Most recently, Ms. Wines served as a research fellow at the Centers for Disease Control and Prevention National Center for Birth Defects and Developmental Disabilities. She has published articles on the use of alternative/complementary medicine among HIV/AIDS patients and the use of family history information as a tool for public health in screening people for risk of diabetes. Ms. Wines' current projects for the Board include policy analysis related to HIV/AIDS, zoonotic diseases, and healthy aging.
